

eviir::Value

```
graph BT; A[eviir::IntegerValue] --> B[eviir::Value]
```

The diagram illustrates a class hierarchy. At the bottom is a gray box labeled 'eviir::IntegerValue'. A blue arrow points vertically upwards from this box to a white box at the top labeled 'eviir::Value'. This indicates that 'eviir::IntegerValue' inherits from or is a specialization of 'eviir::Value'.
